The recommendations :- recognition for more “affordable housing” although none were needed at the present time. (Post meet’g info. from Bob King – referring to the Village Housing Needs Survey July 2014, then 75% of respondents would support limited new housing development.)N.B only 172 replied from a total of 365 questionnaires.
- 4) 2016 Village LDP survey – In accordance with the village housing survey 2014 we agreed to accept that there is a need for more housing within the confines of our village to enable it to cater for our progressive expansion to 2030.
- 5) We confirmed that as Edington is classified as a “small village” at present, only limited infill (one or two dwellings) is allowed under the Wiltshire Strategic County Plan.
- 6) Key tasks :- It was agreed that all members would try and identify possible building sites within the village where development could take place. JLR will try and obtain maps to further assist with this task.
